Subject: RE: Anaconda/Columbia Falls Site File & Document Management

I'll call you this afternoon, once I get a break in my schedule.

Hope that works?

Subject: Anaconda/Columbia Falls Site File & Document Management

Lori,

I spoke w/ Roger earlier today about the site file for the Anaconda/Columbia Falls NPL Site. I understand that he is working w/ you to code various RI/FS technical documents.

I have reviewed my electronic and hard copy files, and wanted to confirm that the documents below have been sent to the Records Center for inclusion in the site file. I suspect that a number of these documents may have not been sent to the Records Center, and would like rectify that situation.

Please note that I have all of the documents below in electronic format, except for the "Accounting" enclosures which accompanied the 2017 and 2018 oversight bills (Shawn McCaffrey may need to provide those enclosures) and CFAC's 104(e) productions (which were provided to you and Roger in October, 2016).

I would appreciate it if you would let me know which documents are missing from the site file. I would be happy to discuss with you the best way to provide any missing documents for inclusion in the site file.

Thank you.
Mark
